## ADD ANOTHER ENTERTAINING DIMENSION TO YOUR EVENT !

Face Painting is wonderful entertainment for not only those receiving the special attention of being in the lime light but also for those watching the artwork being created. Have you noticed how there is always a line of kids waiting for their moment to become someone or something special for a day? Make your event the one that is remembered!

### FORMAT OPTIONS

Whether your event is for a small group of ten to 15 people, or a huge event of hundreds, we can accommodate you. Our portfolio consists of fast faces that take only two or three minutes each all the way up to dramatic faces that take 10 to 15 minutes each. We have several artists with wonderful skills and are great at working with all ages. So if you only need one artist, or several, ... we can accommodate what you need.

### WHAT WE LOOK LIKE AND OUR PRODUCTS:

We dress professionally in black and white with an artist's smock. Our supplies are clean and organized. All our paints, glitters and shimmer powders are the same products used in theater - specifically made for skin, non-toxic and FDA approved. They wash off easily with gentle soap and water or baby wipes.

### WORK AREA:

We completely supply our entire work stations in a professional manner with all we need: Tables, Chairs, Display Boards, etc. For indoor events, each artist needs a 5' x 5' work space. For outdoor events, weather permitting of course, we provide a pop-up canopy that covers four artists in approximately a 10' x 10' area. The only additional space needed is for all the kids waiting in line to be transformed!

### COST

We will arrive at your event prior to your contracted time for set up and we remain after the contracted time for tear-down. In respect to our time for transportation, set-up and tear-down, we require a two-hour minimum for each artist. Our current rate is from \$65 per hour for birthday parties and \$75 per hour for high volume events (e.g. corporate, trade-shows, etc.). Day rates are also available. The number of guests each artist can paint per hour greatly depends on the complexity of the face designs you request for your event.

### A TIDBIT ABOUT OUR ARTISTS & APPRENTICES:

All of our artists and apprentices are Christians and sincerely love God. We strive to be reflections of our faith, in that we care about people. We do not use any offensive language, always dress modestly and professionally. We desire that the joy we have in our hearts is reflected by our smiles and our actions.
