ADD ANOTHER ENTERTAINING DIMENSION TO YOUR EVENT !

Face Painting, Airbrush Tattoos and Glitter Tattoos are the entertainment of choice for birthday parties, corporate and high volume events. It is a wonderful experience for those receiving the special attention of being in the lime light and for those watching the artwork come to life! Have you noticed how there is always a crowd gathered at this booth taking pictures like a celebrity is in the midst? Make your event the one that is remembered!

WHAT WE LOOK LIKE AND OUR PRODUCTS:

All of our products are the same products used in theater and are specifically made for skin. They are non-toxic, hypoallergenic, water or alcohol based and FDA approved. Our team dresses professionally and modestly in a black and white artist's uniform. We do not use any offensive language and work well with everyone whether it is a birthday party, corporate event or a special needs group.

WORK AREA:

We completely supply our entire work stations in a professional manner with all we need: Tables, chairs, display boards, water, trash bucket, etc. For indoor events, each artist needs a 5' x 5' work space. For outdoor events, weather permitting of course, a pop-up canopy is available that covers four artists in approximately a 10' x 10' area. The only additional space needed is for all the kids waiting in line to be transformed!

COST:

We arrive at your event prior to your contracted start time for set up and we remain after the contracted end time for tear-down. In respect to our time for transportation, set-up and tear-down, we require a two or three hour minimum.

Face Painting: \$65 per hour / per artist / two-hour minimum

Glitter Tattoos: \$70 per hour / per artist / two-hour minimum

Airbrush Tattoos and Face Art: \$75 per hour / per artist / three-hour minimum

Please see our website for a gallery of pictures and more information.
